

## Clark Forklift

Currently, there are at least 350,000 Clark forklifts performing worldwide, and more than 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual parts built for 20 unique models of lift trucks and automated equipment. Your regional Clark Seller is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark has a exceptional Parts Supply team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very outstanding international support network. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional dedication to safety is currently a customary feature on every lift truck.

Clark has a relentless goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental limitations, thus placing them in a dominant market position.

### Lean Manufacturing

Clark has selected the system of "Lean Production" at all of its assembly facilities for the reason that this technique is particularly economical and enables minimal use of resources. Established to ensure maximum efficiency, this system is intended to find and acknowledge the most efficient methods for manufacturing plant stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

### Engineering

By working together, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing costs. The new value engineering program combines innovative product development and offers superior client support and service within the industry.
